Dear colleagues,

We are glad to present you the 1st edition of the “RUEF Exhibition Centres” brochure. It contains information on 29 exhibition and convention venues – members of the Russian Union of Exhibitions and Fairs from 22 cities of Russia, Ukraine and Moldova, with total hall space of over 600,000 sq. m.

This publication provides information which may be useful and interesting to anybody involved in exhibition and congress activity: data on the state of venues, their infrastructure and equipment, information on activities and services provided, and also photographs.

What makes “RUEF Exhibition Centres” unique is that it is the only publication containing systemized information of this kind.

You can as well find socio-economic and travel characteristics of regions where venues are situated and statistical figures of exhibition activity in each city.

I hope that this publication will be a useful source of relevant and reliable information, one of the main incentives for the development of your business.

Sergey Alexeev

RUEF President

RUEF is an association of the leading exhibition organizers, venues and trade show related companies from Russia. Representatives from Moldova and Ukraine also join the Union.

Founded in 1991 the Union became a member of UFI, the Global Association of the Exhibition Industry in 1994.

RUEF today represents 29 exhibition and congress venues with total exhibition areal of over 600 thousand sq. m; some 1000 exhibition projects in 43 cities involving 135 thousand participants from 123 countries and 2 mln. sq. m of net exhibition space rented (annually).

Main objectives:

- Contribution to domestic enterprises' products and services promotion on domestic and foreign markets
- Coordination of exhibition and congress activity in Russia
- Legislative initiatives in the field of exhibition and congress activity
- Exhibition audit
- International relations
- Trainings, seminars
- Database of the Russian exhibition industry
- Publications

MOSCOW

General Information

Moscow is the capital of the Russian Federation and its major political, economic, financial, cultural, religious, educational, and transportation centre.

It is located by the Moskva River in the Central Federal District, in the European part of Russia.

Area – 2.6 thousand sq. km.

Population – 11,979.5 thousand people.

Economic Development

The Region ranks among the leading regions of Russia and the Central Federal District for many social and economic development indexes including gross regional product, industrial output, commercial public services, budget revenues, foreign investment inflow, and retail trade turnover.

In spite of its relatively small part of industry in economics, Moscow is the largest industrial center of Russia. The city is a center of machine-building, (including tool, ship, energetic machine building, ferrous and non-ferrous metallurgy), chemical, light and polygraphic industries.

2012 GRP – 10,577.8 bln. RUB

Foreign trade turnover in the first 9 months of 2013–263.8 bln. US dollars

Export – 163.0 bln. US dollars

Import – 100.8 bln. US dollars

Investments in fixed assets in first 9 months of 2013–1,412.1 bln. RUB

Exhibition Activity

There are 22 exhibition organizers – RUEF members that carry out exhibition activity in Moscow. In 2013, these companies organized 202 exhibitions with total net space of 1,190,551 sq. m. 61,130 exhibitors took part in these exhibitions. There were more than 2 million visitors to the events.

Climate

Moscow has a hemiboreal climate with warm, somewhat humid summers and long, cold winters. Typical high temperatures in the warm months of June, July and August are around 22 °C, in the winter temperatures normally drop to approximately –10 °C.

Transportation

There are three main airports serving Moscow: Sheremetyevo International Airport, Domodedovo International Airport, and Vnukovo International Airport. Moscow employs several train stations to serve the city. All of Moscow's nine rail terminals (or vokzals) are located close to the city centre, but they each handle trains from different parts of Europe and Asia.

Tourism and Sightseeing

Moscow is one of the biggest cultural and tourist centers of Europe and the world. There are many places of interest in the city – various historical, cultural and architectural sites; as well as entertainment sights. There are more and more hotels in the city. Some of them are world famous hotel brands known for their quality and ambiance.

There are many places of interest in the Moscow area that are unique in the world. Some of these are: the Kremlin, Bolshoi Theater, A. S. Pushkin Fine Arts Museum, and Tretyakov Gallery.

Such sights as the Novodevichy monastery and Kolomenskoye estate are UNESCO's World Heritage. The hyperboloid design of Shuhovskaya tower and Ostankino TV tower are unique. The latter was once the highest building in the world.

CROCUS EXPO INTERNATIONAL EXHIBITION CENTRE

Address: P.O.B. 92,
16 Mezhdunarodnaya St.,
Krasnogorsk, Krasnogorsk Area,
Moscow Region, 143402, Russia
Tel.: +7 (495) 727-26-26

Opened in: 2004

**Overall exhibition complex
space:** 548,794 sq. m
Hall space: 226,399 sq. m
Open air space: 90,000 sq. m
Number of pavilions: 3
Number of conference rooms: 49
Exhibitions per year: more than 300

Crocus Expo International Exhibition Centre is highly acknowledged by international experts and is listed in the top ten of the most famous fairgrounds worldwide. Its high status is confirmed by many international partners who have chosen Crocus Expo as a platform for their projects holding. The UFI Executive Committee approved the admission of Crocus Expo IEC as a full member of UFI in categories of “Exhibition Organizers” and “Exhibition Centres”.

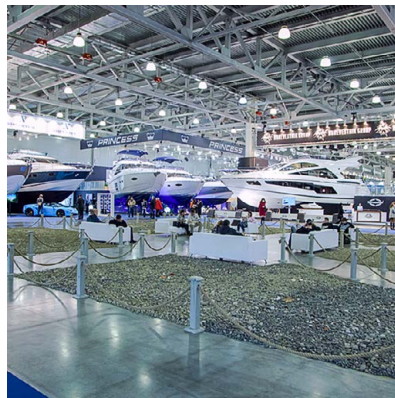

Crocus Expo IEC forms part of a satellite-city of Moscow – Crocus City (90 hectares), founded by Aras Agalarov in 2001 at the crossing of Moscow Motor Ring (MKAD) and Volokolamskoye shosse. At present Crocus Expo is one of the largest and most perspective fairgrounds of the world.

Unprecedented exhibit space and engineering facilitation allows holding events of different profile and scale including industrial trade fairs and international salons. There are various in terms of space and configuration halls in three pavilions of the venue. Partitions between halls can be easily dismantled which allows adjusting expo space to meet any requirements.

Pavilion lobbies and adjacent outdoor spaces can be also rented for various events holding.

The organizers and visitors of events benefit from wide range of services including customs documentation, build up of stands, facilitated with all necessary infrastructures, and catering.

For exhibition centre guests convenience there are free Wi-Fi zone, foodcourts and restaurants, taxi service, cash machines and bank departments.

Major events hosted by the exhibition centre:

World Petroleum Congress

Moscow International Automobile Salon

“Comtrans” International Commercial Vehicle Show

International exhibition of boats and yachts “Moscow Boat Show”

Exhibition of Achievements of National Economy is a national treasure of Russia, the most legendary country exhibition space. Over 20 million of Muscovites and tourists visit the Center annually.

VDNH is a founding member of the Russian Union of Exhibitions and Fairs (RUEF), the Global Association of the Exhibition Industry (UFI), the Chamber of Commerce of the Russian Federation, the Moscow Chamber of Commerce and Trade Industry, Russian Union of Industrialists and Entrepreneurs.

VDNH is a reliable and long-term partner of Russian and foreign companies. Annually, the Exhibition of Achievements of National Economy holds more than 100 exhibitions, 25,000 of exhibitors from 70 countries usually participate in these events. VDNH samples traditionally demonstrated achievements of science and culture of Russia and other countries. VDNH is the operator of Russian national exhibitions and Russian expositions at major international exhibitions.

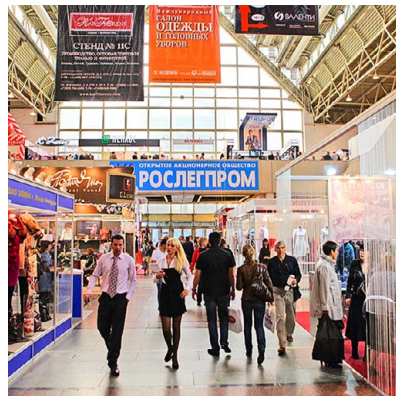

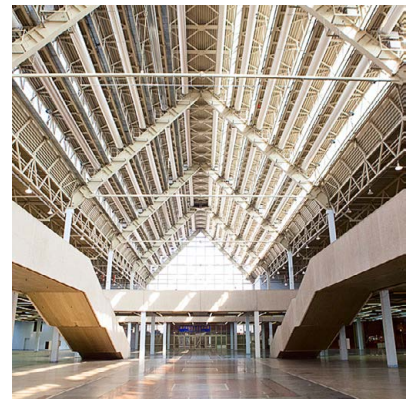

Exhibition halls represent multipurpose rooms, designed for exhibitions, congresses and other events of any level and format. Conference rooms are equipped with modern technical facilities.

VDNH provides with a wide range of services – creating and constructing presentation stands at exhibitions, business and regions promotion, decorating and advertising, customs and logistic services, administrative support, warehouse storage and retail service.

Exhibition of Achievements of National Economy venues are regularly used for holding festivals, concerts, social, sport and cultural events.

The exhibition and commercial centers of the CIS countries, which are very important for networking and tourism development, are situated at VDNH as well – the Republic of Armenia, the Republic of Belarus and the Kyrgyz Republic.

In 2014, the Exhibition of Achievements of National Economy, one of the leading exhibition centers of Russia, celebrates its 75th anniversary.

Major events hosted by the exhibition centre:

Russian Agricultural Exhibition “Golden Autumn”

International Specialized Exhibition “Agrofarm”

All-Russia Exhibition for Scientific and Technical Creativity of Youth “NTTM”

International Exhibition “Flowers”

Federal Trade Fair for Textile and Light Industry Goods and Equipment “Textillegrom”

National Exhibition Fair “The Books of Russia”

The anchor exhibition venue for the Moscow City Government now is successfully operating for the three consecutive years. We are happy to appreciate our constantly growing cooperation with major exhibition and congresses organisers, who are widely presented at the International Exhibition Centre MosExpo.

Our joint task is to form the image of the Moscow City as the city of wide opportunities for Russian and foreign businesses, and as the city which is growing rapidly yet remaining the city of high social responsibility.

IEC MosExpo is not only aimed at serving specialised exhibitions and congresses, but also actively participates in Moscow City Government social projects, solving tasks of sustainable development of the Moscow city, its youth generations, socially unprotected groups of citizens, and support of small and middle-sized businesses which use hi-tech innovative solutions for the sake of Moscow.

Projects in Russia and abroad carried out by IEC MosExpo experts, were ranked at the very high level by major government customers. We have solid business ties, established with federal ministries and authorities of Germany, United Kingdom, United Arab Emirates, South Korea and other countries, with management of the exhibition centres around the world, professional and business medias, who support us in best delivery of our events.

Our venue in Moscow has been visited by top leaders of Russia, the CIS and overseas countries, ministers, heads of major businesses, TV icons and sportsmen. This gives a unique opportunity to the power, culture, science and business to meet each other at the one spot, where they can discuss vital issues of their effective cooperation.

The synergy of effective teams' partnership is colossal. We wish you to become our partners at the International Exhibition Centre! We wish you to become a significant part of MosExpo!

Opened in: 1992

Hall space: 23,960 sq.m
Open air space: 17,000 sq.m
Number of pavilions: 9
Number of conference rooms: 6
Exhibitions per year: 140

Sokolniki Exhibition and Convention Centre is a world class venue for business and recreation. The centre's infrastructure meets top international quality standards which are confirmed by a certificate of UFI – the Global Association of the Exhibition Industry, membership in the International Association of Congress Centres (AIPC) and in the Russian Union of Exhibitions and Fairs. Famous Russian and foreign companies, as well as government authorities and industry organizations are among the centre's clients and partners.

Over the past year, Sokolniki Exhibition and Convention Centre consolidated its position in Moscow's best exhibition venues rating. An increase of exhibition projects well indicated the growth dynamics. Thus, during the period from January to December 2013 there were eighty five exhibitions held (when only sixty six exhibitions were held in 2012). As a result, the number of exhibition projects increased by 29%.

No other metropolitan complex has been implemented with such a dynamic rate over the past year. According to this rate, Sokolniki Exhibition and Convention Centre has become the undisputed leader. Around 149 projects, including corporate events were held in the pavilions of the ECC.

Besides, our expert engineers and maintenance team have fixed all the leaks in the roofs of Pavilions 2, 3 and 4 in 2013. We have also successfully renewed all asphalted areas on the premises of Sokolniki Exhibition and Convention Centre in the summertime. Mitkovsky proezd is now equipped with a new roadbed thus making the avenues of approach much more convenient and comfortable. Moreover, new asphalt has found its way along Pavilion 11.1 from Mitkovsky proezd to Festival Square, engulfing one of Sokolniki ECC's guest parking lots. All the pavilions now provide high-speed access to a wireless Internet connection.

Sokolniki Exhibition and Convention Centre provides a full range of services for organizing and holding large-scale events varying from corporate events to international exhibitions and forums: stand and mobile pavilion construction, halls and conference rooms rental, advertising services, catering and much more.

Major events hosted by the exhibition centre:

- Euro Shoes
- Analitika Expo
- Cabex
- RGW
- Craft Formula
- Equiros

World Trade Center Moscow takes great pride in being regarded as Russia's the foremost business center. Being a part of the global network of World Trade Centers, it provides comprehensive quality business services associated with global trade.

The WTC Congress Center, a purpose-built world class venue is located downtown Moscow, just 4 km from the Kremlin and in vicinity of Moscow City, a major business district and international business complex Expocentre.

Clearly designed as a multi-purpose facility to suit your individual needs – large scale functions, product launches, shows, corporate seminars, board meetings, banquets, promotional activities or special events – whatever your requirement, Congress Center can welcome up to 4,600 participants.

Featuring 4 dedicated floors, the WTC Congress Center offers 30 conference halls and meeting rooms, including the multi-functional transformable Congress Hall seating up to 1,500.

With nearly 3,000 square meters of exhibition space our Congress Center is ideally suited for small and medium scale exhibitions.

Innovative technologies, the latest in audio visual, IT and technical support and an experienced team are guarantees of a successful event.

Conference organizers are assured of high quality catering for their conference delegates.

The delegates are comfortably accommodated at our Crowne Plaza Hotel, an integral part of World Trade Center Moscow.

In 2013 WTC Congress Center won The Russian Business Travel and Mice Award in the nomination "The Best Congress Center in Russia".

WTC Moscow is a member of World Trade Centers Association (WTCA), International Congress & Convention Association (ICCA) and Association Internationale des Palais de Congrès (AIPC) and the Russian Union of Exhibitions and Fairs.

SAINT PETERSBURG

General Information

Saint Petersburg is a federal city of Russia, capital of the Northwestern Federal District. It is a major industry, culture, research, and tourism center with a diversified economy structure.

It is located on the Neva River at the head of the Gulf of Finland on the Baltic Sea.

Area – 1.4 thousand sq. km

Population – 5,028.0 thousand people

Economic Development

The advantages of the city are its favorable geographical location, developed transport infrastructure (roads, railroads, sea transport, air transport), and efficient investment policy of the municipal authorities. The city has a great intellectual, scientific and personnel potential which contributes to a comfortable atmosphere for business development.

Primary industries in Saint Petersburg are engineering, energy industry, chemical and petrochemical industry, forestry and woodworking industry, food industry, railway, marine, river, automobile, air transport.

2012 GRP – 2,292.0 bln. RUB

Foreign trade turnover in the first 9 months of 2013 – 41.9 bln. US dollars

Export – 15.8 bln. US dollars

Import – 26.1 bln. US dollars

Investments in fixed assets in first 9 months of 2013 – 366.9 bln. RUB

Exhibition Activity

There are 8 exhibition organizers – RUEF members that carry out exhibition activity in St. Petersburg. In 2013, these companies organized 111 exhibitions with total net space of 186,046 sq. m. 14,696 exhibitors took part in these exhibitions. There were more than 930 thousand visitors to the events.

Climate

Saint Petersburg experiences a humid continental climate of the cool summer subtype. The average daily temperature in July is 23 °C and the average winter minimum is about –9°C.

Transportation

Saint Petersburg is the most important center between Scandinavia and Europe, central parts of Russia and Baltic states. In the southern part of the city the airport “Pulkovo” is situated. There are 5 train stations in St. Petersburg.

Tourism and Sightseeing

Saint Petersburg has significant historical and cultural heritage and is thus considered a highly attractive tourist destination.

Saint Petersburg is inscribed on the UNESCO World Heritage list as an area with 36 historical architectural complexes and around 4000 outstanding individual monuments of architecture, history and culture. The city has 221 museums, 2000 libraries, more than 80 theaters, 100 concert organizations, 45 galleries and exhibition halls, 60 cinemas and around 80 other cultural establishments.

The city has more than 260 large and small hotels with total number of 27,000 rooms.

With the introduction of a new passenger port in the west of Vasilevsky Island and the abolition of the visa regime for short-term visits of tourists, St. Petersburg became one of the centers of cruise tourism in Europe.

The Congress and Exhibition Centre “SIVEL” is one of the leading companies of Saint Petersburg and Leningrad Region, providing the whole complex of services in exhibition activities. The company was founded in 1993 and today it has a great experience of work in the exhibition area of St.Petersburg, Moscow and abroad. The company is a full member of Russian Union of Exhibitions and Fairs, and a member of St.Petersburg Chamber of Commerce and Industry.

Congress and exhibition union “SIVEL” positions itself as an organizer of Russian and international congress and exhibition activities in different areas of industry, science and technology, transports, food, healthcare.

From the beginning of the company and to present its permanent director is Smorodin Vitaly.

The year 2000 was a turning point in the development of the company. Its own exhibit space – Cultural and Exhibition Center “Eurasia” was created then (2,500 sq. m).

Annually Congress and Exhibition Association “SIVEL” conducts and participates in 50 exhibition and congress events.

The company has a complex building structure, exhibition equipment and a base for the design and construction of exhibition modules for standard and individual projects for their own actions and for individual orders.

The association has the practice of information and analysis, organization of advertising campaigns. The company owns a number of high-tech printing equipment, so that can serve not only their own actions, but also to perform third-party orders.

Major events hosted by the exhibition centre:

Interregional Specialized Exhibition-Forum "Labour Protection. Fire Safety. Protection of Population"

Interregional Specialized Exhibition-Fair "The Beauty. Health. Youth"

Interregional Specialized Exhibition-Fair "Souvenirs. Gifts. Decoration"

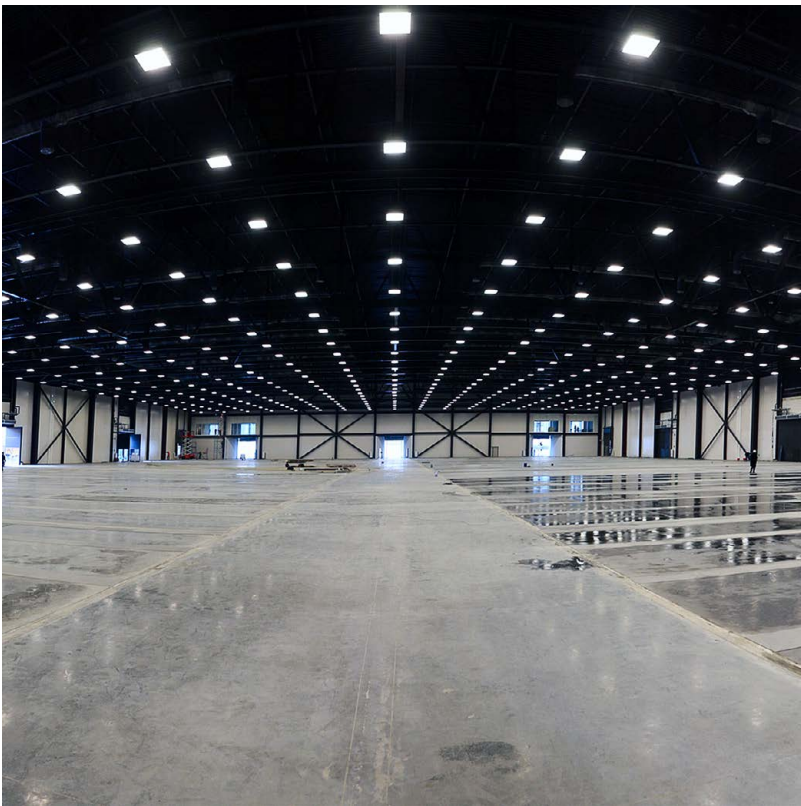

Exhibitions and conventions per year: 115

The new, modern ExpoForum Convention and Exhibition Centre will open its doors in St. Petersburg in October 2014. The new complex, which meets the highest European standards, covers an area of more than 56 hectares and is located close to Pulkovo International Airport. The venue is furnished with all the facilities required to host absolutely any type of event, from exhibitions and conventions to sport competitions, concerts, shows and film festivals.

Each pavilion has an exhibition area of 13,114 sq. metres, with duct spacing (including electricity, low-voltage current, water and sewage systems) measuring 3 metres. The use of pillar-free construction technology will enable the optimal use of space inside the venue, while the reinforced floor will allow industrial equipment and other heavyweight machinery to be exhibited.

The venue also includes a convention centre with a capacity of up to 10,000 guests, with a main hall seating 4,200, a hall for gala events seating 2,000, a business centre, a customs terminal, cafés, restaurants and parking facilities. In addition Hilton Saint Petersburg ExpoForum and Hampton by Hilton Saint Petersburg ExpoForum, will offer a total of 447 hotel suites for guest accommodation.

From the word go, the Convention and Exhibition Centre will offer a full range of associated services, including exhibition set-up, catering, transport and tourism services. A shuttle-bus service will be provided in order to transport visitors from nearby metro stations to the site in just 15 minutes.

The first key events to take place at the new venue:
St.Petersburg International Gas Forum
St.Petersburg International Health Forum
Advertising. Publicity. Information. Design, Exhibition
Zoosphere, International Exhibition

Opened in: 1995

Hall space: 3,100 sq.m
Open air space: 4,000 sq.m
Number of pavilions: 1
Number of conference rooms: 3
Events per year: 34

BELEXPOCENTER, a department of the Belgorod Region Chamber of Commerce and Industry, is the only regional specialized exhibition and congress complex in the Central Federal District.

BELEXPOCENTER has been engaged in organizing and conducting exhibitions and fairs since 1995. On the whole, the BELEXPOCENTER staff has held over 465 fairs with more than 47,000 participants from Russia, CIS countries and from abroad. Fairs organized and held by BELEXPOCENTER have been attended by over 250,000 people annually.

The fairs and other events are organized and held by a qualified staff.

A series of specialized fairs, such as “BelExpoStroy”, “Energy Saving and Electrical Engineering. Public Utilities”, “Medium and Small Businesses. Innovations. Investments. Nano-Technologies. Business for the Business”, “Modern City”, “BelgorodAgro”, “Medicine. Pharmacy. Dentistry. Health and Beauty” have been held under the auspices of the Chamber of Commerce and Industry of the Russian Federation, which goes to show their rank. The “BelgorodAgro” fair had support from the Russian Ministry of Agriculture.

Fairs held by BELEXPOCENTER are traditionally coupled with other business events: regional meetings, conferences, round-table discussions, master classes, seminars, as well as fashion shows and contests of tailors, make-up artists, hair stylists. Each year BELEXPOCENTER supported by professional unions and associations hosts restaurant review-contests and the Advertisement and Design Festival.

BELEXPOCENTER is located in the center and can be conveniently reached from any part of the city. The center’s technical capabilities meet relevant international standards and enable a wide range of quality services for business events, such as

- exhibition-related services;
- organizing congress events;
- catering services;
- information support;
- the places for rent for holding exhibitions, conferences, symposiums, meetings, presentations, training sessions, contests, business meetings and cultural and sports events.

CHITA

General Information

Central City of Zabaykalsky Territory. Chita stands at the confluence of the Chitinka and Ingoda Rivers and on the Trans-Siberian Railway.

Region's area – 431.9 thousand sq. km

Region's population – 1,095.2 thousand people

Economic Development

The Zabaykalsky Territory has great potential for implementing investment projects, mainly, in the sphere of natural and mineral resource development and infrastructure development.

Key industries: non-ferrous metals, energy, fuel, food and beverages.

2012 GRP – 225.5 bln. RUB

Foreign trade turnover (9 months of 2013) – 611.8 mln. US dollars

Export – 234.6 mln. US dollars

Import – 377.3 mln. US dollars

Investments in fixed assets (9 months of 2013) – 29.2 bln. RUB

Exhibition Activity

There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Chita. In 2013, this company organized 12 exhibitions with total net space of 12,744 sq. m. 1,647 exhibitors took part in these exhibitions. There were more than 60 thousand visitors to the events.

Climate

Harsh continental climate with long and cold winters. Average January temperatures range from –23°C in the south to –33°C in the north and southeast. The summers are warm, average July temperatures range from 10°C to 20°C in the hollows and from 5°C to 7°C in the mountains.

Transportation

Chita stands on the Trans-Siberian Railway, 500 miles east of Irkutsk. It is a large railway junction. There is an airport Kadala.

Tourism and Sightseeing

The settlement of Chita is known since 1653 founded by Pyotr Beketov's Cossacks.

The great diversity and beauty of its landscapes characterize Zabaykalsky Territory. It derives much of its importance to Russia from its proximity to China.

Among the sights of Chita there are:

- Kazansky Orthodox Cathedral – a monument of Vladimir-Suzdal architectural style;
- Museum Church of Decembrists;
- Chita's datsan – a big Buddhist temple.

The Chita establishments of culture are the Drama and Puppet theatres, the Philharmonic society, the Museum of local lore, the Art museum, the Museum of Decembrists, etc.

Hall space: 3,300 sq.m
Open air space: 2,500 sq.m
Number of pavilions: 2
Number of conference rooms: 1
Exhibitions per year: 16

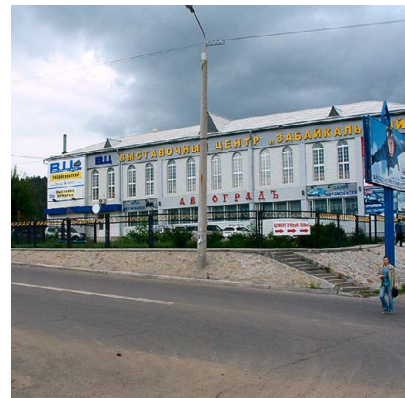

Zabexpoctr Ltd was founded in 2002. Nearly 17–20 exhibitions and fairs on various subjects are held annually in it with participation of exhibitors from different regions of Russia and foreign countries.

Exhibitions are filled with different actions, including round tables, conferences, formal negotiations, meetings with journalists, seminars, master-classes, presentations of the enterprises, firms and organizations. At present Zabexpoctr has its own indoor exhibition areas of more than 3,300 sq. m and outdoor exhibition area of 2,500 sq. m. The Exhibition Centre generated a database on more than 50 thousand Russian and foreign enterprises of various forms of ownership.

Year by year the number of specialized exhibitions grows steadily, transition from exhibitions of the consumer goods to exhibitions with the purpose of forming industrial and economic regional policy gradually proceeds. Among the most popular and successful there are “Education and Career”, “Chitastrojmarket”, “Autotransexpo – 2013”, “Industry and Energy Complex of Transbaikalian Region”, “Cross-border Cooperation”.

Not only series of materials regularly published in mass-media, but also more than 50 representative offices of Russian and foreign enterprises operating in Chita expressively speak about Centre activity. At present there are objective reasons for increasing interest from foreign investors to attract financial assets in economics of Transbaikalian Region which is associated with both rich natural resources and development of foreign trade activities with the border countries. The advantageous geographical position of Transbaikalian Region concerning the Chinese National Republic creates favorable opportunities for creation of exhibition of industrial products of Asia-Pacific Region countries.

At the present time the management of Exhibition Center Zabaikalsky together with the Ministry of the International Cooperation, Foreign Economic Relations and Tourism of Transbaikalian Region is developing a program of opening constantly acting expositions with involvement of large Chinese companies, creating a large international exposition in Chita, which would attract business representatives from other regions of Russia.

International exhibition center Ekaterinburg-EXPO was built in 2011 under the patronage of the Sverdlovsk Region Government. Now IEC Ekaterinburg-EXPO is one of the largest and modern exhibition centers in Russia.

Exhibition center with total exhibition area of 50,000 sq. m is a unique venue for various projects – exhibitions, forums, fashion shows, concerts, sporting and corporate events. Nowadays IEC Ekaterinburg-EXPO includes 4 pavilions (3 exhibition pavilions and 1 congress hall).

Competitive advantages of IEC Ekaterinburg-EXPO:

- The unique architectural solutions: IEC Ekaterinburg-EXPO was designed by the world famous architect – Jose Asebijo Marin
- Unsupported dome constructions are adopted for largest stands
- Full range of services for event organizers and exhibitors
- Convenient geographical position - in 5 minutes drive from the international airport and in 20 minutes drive from the center of the city
- IEC Ekaterinburg-EXPO is nearby located from main hotels, restaurants and entertainment centers

For the last 2 years IEC Ekaterinburg-EXPO has been a platform for 200 different events. Large exhibitions and business events are held here, such as the International Industry Fair “INNOPROM”, I Development Institutions Forum, International Professional Exhibition “BEAUTY MEDICINE” and others.

The exhibition center provides a full organizational service: exhibition space renting, standard and exclusive construction of the exhibition space, audio-video and presentation equipment renting, advertising services, transport, catering, etc.

Major events hosted by the exhibition centre:

International Industrial Trade Fair "INNOPROM"

International Beauty Forum

International Tourist Exhibition "Summer – 2014"

Forum of Interregional Cooperation of Kazakhstan and Russia

International Specialist Exhibition of Machines, Equipment and Technologies for the Forest and Woodworking Industries "LESPROM-URAL Professional"

IRKUTSK

General Information

Irkutsk is one of the largest cities in Siberia and the administrative center of Irkutsk Region. Baikal Lake is located near the city (about 70 km).

Region's area – 774.8 thousand sq. km

Region's population – 2,422.0 thousand people

Economic Development

Irkutsk Region has a highly developed industry and possesses a considerable share of Russia's natural resources which defines the key branches of the Region.

Key industries: non-ferrous metals, forestry, machine engineering, energy.

2012 GRP – 743.8 bln. RUB

Foreign trade turnover (9 months of 2013) – 7.0 bln. US dollars

Export – 6.1 bln. US dollars

Import – 0.9 bln. US dollars

Investments in fixed assets (9 months of 2013) – 99.0 bln. RUB

Exhibition Activity

There is 1 exhibition organizer – RUEF member with a permanent seat in Irkutsk that carries out exhibition activity in the city. In 2013, this company organized 24 exhibitions with total net space of 21,750 sq.m. 1,837 exhibitors took part in these exhibitions. There were more than 247 thousand visitors to the events.

Climate

The region's great extent and rugged relief are the reasons for the varied climatic conditions. Winters are cold (January temperatures range from -17°C to -33°C); summers are hot and dry in the first half (July temperatures range from $+17^{\circ}\text{C}$ to $+33^{\circ}\text{C}$) and rainy in the second half.

Transportation

The city is an important transportation junction of the region. Trans-Siberian Railway and federal highway to Vladivostok are going through the city. There are two airports in the city: Irkutsk International Airport and Irkutsk Northwest Airport.

Tourism and Sightseeing

Irkutsk region has a rich history, that's why there are historical monuments in every settlement here.

Besides, unique phenomena are located in the region: first of all, it is the lake Baikal and Baikal National Park.

One of the most unusual museums of the Irkutsk Region – is a complex museum the Krugobaikalskaya railway. A large engineering complex was founded in the years 1902–1905 on the bank of the Baikal Lake in the area 100 km long. It consists of 58 tunnels and galleries, over 500 bridges and viaducts, about 600 retaining bank protection walls which supplement 172 monuments of architecture.

Irkutsk is considered to be one of the most beautiful cities of Siberia. Ancient buildings remained in the center of the city: merchant Sibiryakov's house with a monument to Alexander III opposite to it, governor general residence, Trapeznikov's house and other ancient buildings. Other survived buildings are: Spasskaya church, Bogoyavlensky Cathedral, Krestovozdvizhenskaya church, Polish church, synagogue and Tatar mosque.

The Regional museum opened in Irkutsk in 1782 is still functional. It includes an exposition revealing the city history from the earliest times: ethnographic, geologic and historic collection.

Irkutsk features opportunities for ski mountaineering.

SIBEXPOCENTRE, OJSC

Opened in: 1996

Hall space: 4,500 sq.m
Open air space: 3,400 sq.m
Number of pavilions: 3
Number of conference rooms: varies
Exhibitions per year: 37

Sibexpocentre Irkutsk Exhibition Complex is a leading exhibition company of Eastern Siberia. Sibexpocentre specializes in exhibitions and congress events holding for more than 20 years. The company has been a member of the Russian Union of Exhibitions and Fairs since 1992.

Exhibition Complex consists of three pavilions with a total area of 4,500 sq.m and an outdoor exhibition area with the size of 3,400 sq.m.

Every year, Sibexpocentre OJSC carries out more than 35 exhibitions. Themes of the exhibitions reflect almost all economic sectors of Irkutsk Region. Regular exhibitors come to Irkutsk from Russian regions and abroad. For one exhibition year, Sibexpocentre hosts more than 400 thousand visitors, over 3,000 exhibitors from different regions of Russia and over 20 foreign countries present their companies here.

Sibexpocentre is a perfect place for carrying out business events. Exhibition space can be easily transformed into conference halls for several hundreds of seats, concert halls and podiums. The complex has modern types of demonstration, communication equipment and communication facilities.

Sibexpocentre successfully cooperates with various international exhibition companies, representative offices of foreign official institutions in Russia, such as consulates and chambers of commerce and industry of China, Korea, Mongolia, Japan, Poland, subdivisions of different unions and associations, has experience in holding of national exhibitions presenting expositions of different regions and countries.

Team of Sibexpocentre can not only prepare and carry out events, but also solve many organizational issues, related to reservation of hotel rooms, transfers, arrangement of advertising campaigns and excursions programmes for participants. All of this turns the exhibition centre unto not only the largest presentation platform, but also the biggest business centre of Eastern Siberia.

Popularity of Sibexpocentre is explained by its proximity to Lake Baikal – only 63 km separate guests of the city from the world gem. No trip to Irkutsk is complete without a visit to the picturesque lake.

KALININGRAD

General Information

Kaliningrad Region is the Russia's most extreme western exclave region, borders Poland and Lithuania, and is geographically separated from the rest of Russia.

Region's area – 15.1 thousand sq. km

Region's population – 954.8 thousand people

Economic Development

Kaliningrad Region is a dynamically developing region. Its economy benefits from its mineral resources wealth, unique geopolitical location, proximity to sea and European countries as well as developed tourist infrastructure.

Key industries: food, machine engineering and metal processing, fuel, timber, pulp and paper, power.

2012 GRP – 264.6 bln. RUB

Foreign trade turnover (9 months of 2013) – 10.2 bln. US dollars

Export – 1.5 bln. US dollars

Import – 8.7 bln. US dollars

Investments in fixed assets (9 months of 2013) – 64.8 bln. RUB

Exhibition Activity

There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Kaliningrad. In 2013, this company organized 19 exhibitions with total net space of 10,304 sq.m. 1,448 exhibitors took part in these exhibitions. There were more than 100 thousand visitors to the events.

Climate

The climate is transitional from temperate continental to maritime. The average annual temperature ranges from +6.2 to +7.6°C with an average July temperature of +17°C and an average January temperature of +3°C.

Transportation

Borderless travel to the main part of Russia is only possible by sea or air. All kinds of transport are well-developed. Kaliningrad has railway connections with Russian cities, Poland and Berlin in Germany. There is an airport in Khrabrovo.

Tourism and Sightseeing

Kaliningrad Oblast is informally called Yantarny kray (meaning amber region).

Kaliningrad (formerly known as Königsberg) has historical significance as both a major city of Prussia and the capital of the former German province East Prussia, partitioned after World War II between the USSR and Poland, and renamed after Mikhail Kalinin.

Kaliningrad Oblast is worth visiting for its old country-side Prussian castle ruins, as well as for its sunny beaches, the highest sand dunes in Europe, thick pine forests and the world's largest amber deposits. Kaliningrad has its own distinctive appearance: parks and squares occupy a third of the city's territory, and typical Western European architecture gives way to styles common to modern cities.

Kaliningrad has many museums. A few examples are the Immanuel Kant museum the Regional Museum of History and Arts, and the Kaliningrad Amber Museum. The city also has an art gallery with eight exhibition rooms.

There are several theatres. Musical life of the city is rich and diverse. Music festivals of various styles are held annually.

KAZAN

General Information

Kazan is the capital of the Republic of Tatarstan. The Republic is located in the center of the East European Plain. It lies between the Volga River and the Kama River (a tributary of the Volga).

Region's area – 67.8 thousand sq. km

Region's population – 3,822.0 thousand people

Economic Development

Tatarstan is one of the most economically developed regions of Russia. The Republic is highly industrialized. The main source of the Republic's wealth is oil.

Key industries: fuel, machine engineering and metal processing, automotive, chemicals and petrochemicals.

2012 GRP – 1,436.9 bln. RUB

Foreign trade turnover (9 months of 2013) – 20.4 bln. US dollars

Export – 16.7 bln. US dollars

Import – 3.7 bln. US dollars

Investments in fixed assets (9 months of 2013) – 306.3 bln. RUB

Exhibition Activity

There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Kazan. In 2013, this company organized 37 exhibitions with total net space of 40,670 sq. m. 3,368 exhibitors took part in these exhibitions. There were almost 195 thousand visitors to the events.

Climate

Moderate continental climate. Average January temperature: –16°C; average July temperature: 19°C.

Transportation

International airport «Kazan» is located 28 km to the south of the city. The railway station is located in the central part of Kazan.

Tourism and Sightseeing

Today Kazan is the center of Tatar people culture. Kazan has been undergoing a total renovation since 2000. The metro was opened in 2005. The city celebrated its millennium in 2005 when one of the largest mosques in Russia (Qolsharif) was built inside Kazan Kremlin walls. Also Millennium Bridge was opened in 2005.

Kazan Kremlin is among UNESCO world heritage and a 1000 year history of Kazan makes it one of the Russian cities most often visited by tourists.

There are two museums of republican significance, as well as 90 museums of local importance. In the past several years new museums appeared throughout the Republic. There are 12 theatrical institutions in Tatarstan.

Kazan offers a lot of various events you can visit during your stay here – international opera and ballet festival, different types of music festivals, popular singers' concerts and many other interesting things to do. The 27th World Summer Universiade was a global student-youth sports event held in Kazan in July 6–17, 2013.

Besides events, from the river station you can take boat trips on the Volga.

Kazanskaya Yarmarka is a fast developing exhibition company with high positions on the Russian market.

Kazanskaya Yarmarka JSC is the only exhibition venue of the Republic of Tatarstan with an opportunity for displaying exhibits at the grounds of more than 20,000 sq. m. The Exhibition Center is featured by pavilions with total capacity of 6,700 sq. m, Main Pavilion with conference-halls and hall for VIP-receptions, modern Congress-Center.

The Exhibition Center organizes over 40 trade shows annually, covering all economy sectors visually and creating best conditions for development and promotion of the home producers on the Russian and world markets. Annually more than 6,000 companies from Russia and 45 foreign countries participate in the exhibitions. Visitor attendance makes at average over 300 thousand professionals.

The performance of Kazanskaya Yarmarka JSC is marked by major exhibition organizations – the Russian Union of Exhibitions and Fairs (RUEF) and the Global Association of the Exhibition Industry (UFI). The Exhibition Center also has a mark of meeting international quality standards in the sphere of organizing and hosting exhibitions and fairs, congress events in terms of the exhibitions as well as non-exhibition projects – ISO-9001-2008. Since 2012 Kazanskaya Yarmarka JSC has been a member of the Russian-German Chamber of Commerce (АНК), since 2013 – member of the International Congress and Convention Association (ICCA), since 2014 – member of the Association of the European Business.

Core goals: organization of exhibitions and events; design and construction of stands; organization of expositions of the Republic of Tatarstan in Russia and abroad; participation in development of social and economic infrastructure of the Republic of Tatarstan.

While organizing events, the Exhibition Center is supported by the Cabinet of the Ministers of the Republic of Tatarstan, trade ministries and departments, government bodies of the Privolzhsky Federal District, Russian and international companies as well as federal and international organizations.

Major events hosted by the exhibition centre:

Volgastroyexpo

Energy. Resource-Saving

Tatarstan Oil, Gas and Petrochemicals Forum

Mechanical Engineering. Metalworking

International science and research conference “Development and application of up-to-date methods of oil recovery increase”

KRASNODAR

General Information

Krasnodar is a city and the administrative center of Krasnodar Territory, located on the Kuban River about 148 kilometers northeast of the Black Sea port of Novorossiysk.

Region's area – 75.5 thousand sq. km

Region's population – 5,330.2 thousand people

Economic Development

The Territory's economic development is focused on its agro-industrial, fuel and energy, transport, resort-and-recreation, engineering, forestry, woodworking, furniture and construction-materials sectors. However the Territory's economy is heavily agricultural. And around agricultural production food industry has developed.

Key industries: food and beverages, energy, fuel, machine engineering and metal processing, construction materials.

2012 GRP – 1,438.5 bln. RUB

Foreign trade turnover (9 months of 2013) – 11.3 bln. US dollars

Export – 7.1 bln. US dollars

Import – 4.2 bln. US dollars

Investments in fixed assets (9 months of 2013) – 598.8 bln. RUB

Exhibition Activity

There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Krasnodar. In 2013, this company organized 24 exhibitions with total net space of 75,244 sq. m. 3,456 exhibitors took part in these exhibitions. There were more than 166 thousand visitors to the events.

Climate

The climate varies from temperate continental to subtropical. Average January temperatures range from –8°C in the mountains and –4°C on the plains to +5°C on the seacoast; average July temperatures vary from +13°C in the mountains to +23°C on the plains and coast.

Transportation

Krasnodar is an important transportation and transit juncture in the south of Russia. The federal highway M4 «Don» crosses the city. There is an international airport Pashkovsky located in the eastern part of Krasnodar city. In the southern part of the city there is a freight river port on the river Kuban.

Tourism and Sightseeing

Krasnodar Territory has the most fortunate climate conditions in Russia. The territory of Krasnodar Territory is a nature conservation zone distinguished by diverse plant and animal life. Krasnodar Territory also contains Russia's largest tourist industry by some measure, catering principally to domestic tourists. The region contains a full 25% of all Russia's registered hotels and resorts.

Krasnodar was founded in 1794 as Yekaterinodar. The oldest part of the city is Old Downtown Krasnodar, which consists of many historic buildings, several from the 19th century. Buildings have been preserved, restored or reconstructed, and the district is now a substantial tourist attraction.

Shukhov's Hyperboloid Tower near Krasnodar's Circus is a unique architectural steel lattice hyperboloid tower built by the Great Russian engineer and scientist Vladimir Grigorievich Shukhov in 1928.

The city is a large cultural center of Russia. There are State Academic Drama Theater, Puppet Show Theater, State Circus, Philharmonic Society, a lot of parks, Botanic garden, aqua-park. Kuban Cossack chorus directed by Victor Zakharchenko is the pride of Krasnodar people.

KRASNOYARSK

General Information

Krasnoyarsk is the third largest city in Siberia, located on Yenisei river. Krasnoyarsk is the second largest federal subject after the Sakha Republic, Russia's largest Territory and the third largest subnational governing body by area in the world.

Region's area – 2,366.8 thousand sq. km

Region's population – 2,846.5 thousand people

Economic Development

Industrial production is the basis of the Krasnoyarsk Territory's economy. The material production is dominated by industry, agriculture and construction. Over 95% of the cities, a majority of the industrial enterprises, and all of the agriculture are concentrated in the south of the Territory. The Territory is among the richest of Russia's regions in natural resources.

Key industries: non-ferrous metals, energy, machine engineering, metals processing.

2012 GRP – 1,192.6 bln. RUB

Foreign trade turnover (9 months of 2013) – 7.7 bln. US dollars

Export – 6.1 bln. US dollars

Import – 1.6 bln. US dollars

Investments in fixed assets (9 months of 2013) – 244.7 bln. RUB

Exhibition Activity

There are 2 exhibition organizers – RUEF members that carry out exhibition activity in Krasnoyarsk. In 2013, these companies organized 38 exhibitions with total net space of 36,409 sq. m. 4,177 exhibitors took part in these exhibitions. There were more than 308 thousand visitors to the events.

Climate

The climate is strongly continental with big variations of temperature during one year. The average temperature of January is -36°C in the north and -18°C in the south. The average temperature of July is 10°C in the north and 20°C in the south.

Transportation

Krasnoyarsk is an important junction on the Trans-Siberian Railway. There are also highway, water and air connections with other regions. There are also 26 airports including a large international airport Emelyanovo in Krasnoyarsk.

Tourism and Sightseeing

The city was founded in July of 1628 as a Russian border fort.

There is a number of historical buildings in Krasnoyarsk, the oldest of them is the Intercession Cathedral. The most popular place of attraction for tourists visiting Krasnoyarsk is the huge national nature reserve Stolby ("pillars"), which covers an area of 470 sq. km with numerous giant granite rocks formations up to 100 m high, many of very extraordinary shapes. Stolby is also a major rock climbing location.

Other popular showplaces include the Krasnoyarsk Hydroelectric Power Station dam (it is pictured on Russian ten-ruble note), the Karaulnaya Gora hill with the Paraskeva Pyatnitsa Chapel, museums, theaters, etc.

There are several museums in Krasnoyarsk, 45 museums in the region, with total number of about one million objects stored there.

Krasnoyarsk zoo is also a major attraction for residents and tourists.

Number of conference rooms: 5
Exhibitions per year: 76

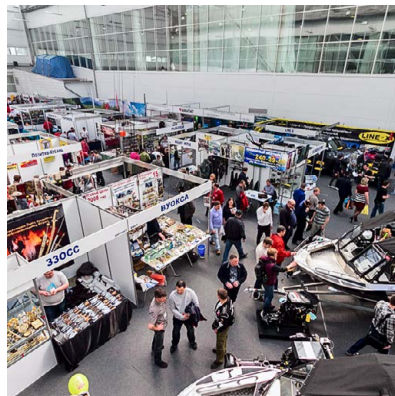

Krasnoyarsk Fair Exhibition Company was founded in 1992, and quickly gained the status of one of the major exhibition companies in Siberia and the Far East. It contributes greatly to the development and promotion of the exhibition business in general. Annually we can trace the growth of interest to the exhibition projects on behalf of visitors and exhibitors. More than 1,900,000 people have visited the company exhibitions for 21 years; over 60,000 companies have participated as exhibitors.

Since 2007 Krasnoyarsk Fair has been the major operator of all events in the premises of the SIBERIA International Exhibition and Business Center. It is a modern complex built according to the world standards. The total area of Siberia International Exhibition and Business Center comprises 52,000 square meters; this enables to provide on the territory of the complex a large spectrum of services required for event management. To the services of the guests there are exhibition pavilions and grounds, conference halls, a hotel and a restaurant. In 2014 a new congress center Grand Hall Siberia which is unique for the Territory of the Urals, Siberia and the Far East, was established. It includes a gala hall, 6 modern conference halls, a large hall for 1,716 seats suitable for organization of large-scale concerts and congress events.

The Krasnoyarsk Fair events calendar includes such congress and exhibition projects as Construction and Architecture; Modern Security Systems – Antiterror; itCOM – Information Technologies. Telecommunications; Siberian Energy Forum; Siberian Dental Forum; Siberian Entrepreneurship Forum; Metal Work and Welding show; Krasnoyarsk Trade Forum; Agricultural Forum in Siberia, etc. It should be mentioned that the co-organizer of two specialized exhibitions ClimatAquaTEx and ExpoDrev is Deutsche Messe AG, one of the largest world exhibition companies from Hannover. The Krasnoyarsk Fair events calendar includes about 60 events.

In addition to that, the company develops one more direction – organization of visits for foreign guests to Krasnoyarsk and visits of Krasnoyarsk Region business delegations abroad.

Moreover, the company takes part as a co-organizer and technical operator in Russian, regional and city events such as Krasnoyarsk Economic Forum, Non-Ferrous Metals congress, Krasnoyarsk Book Culture Fair, Crafts Fair, various regional contests.

Major events hosted by the exhibition centre:

Siberian Energy Forum

Architecture and Construction Forum of Siberia

Siberian Dental Forum

Siberian Breadingmaking Forum

KURSK

General Information

Kursk Region is located in the western part of central Russia. It borders Ukraine in the west.

Region's area – 30.0 thousand sq. km

Region's population – 1,119.3 thousand people

Economic Development

In addition to its importance as an administrative hub, Kursk is important as an industrial centre. Activity focuses on iron based industry, the chemical sector and a large food processing industry, reflecting the richness of agriculture in the surrounding «Black Earth» region.

Key industries: ferrous metallurgy, food, light, chemicals and petrochemicals, power, engineering and metalworking.

2012 GRP – 253.8 bln. RUB

Foreign trade turnover in the first 9 months of 2013–1.0 bln. US dollars

Export – 0.5 bln. US dollars

Import – 0.5 bln. US dollars

Investments in fixed assets in first 9 months of 2013–70.7 bln. RUB

Exhibition Activity

There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Kursk. In 2013, this company organized 8 exhibitions with total net space of 9,630 sq. m. 1,280 exhibitors took part in these exhibitions. There were more than 11 thousand visitors to the events.

Climate

Kursk Region's location at the center of the European part of Russia gives the region a medium continental climate: warm summers and relatively mild winters. In July, the average daytime high temperature is +19.3°C. In January the average high is –8.6°C.

Transportation

Kursk is an important highway and railway junction. There is also an international airport «Vostochny» in Kursk.

Tourism and Sightseeing

Ten kilometers away from Kursk, there lies the Central Black Earth State Biospheric National Park named after V. V. Alyokhin. The area's flora comprises 920 species of plants; therefore, scientist Alyokhin called this phenomenon «the Kursk botanic anomaly».

In addition to the abundance of natural resources, the region features numerous cultural and architectural relics attracting travelers and those who prefer intellectual tourism.

One of the best-known towns of the region is Rylsk. Scripts mention the town even in pre-Tatar times. Rylsk is remarkable for the fact that its older part was almost fully preserved until today and does not include later urban developments.

In Kursk Region as well as in the city of Kursk, there is a number of historic monuments dedicated to Kursk tank battle and reflecting other events of the Great Patriotic War.

Having decided to visit Kursk Region, you will have the opportunity to fully enjoy the unique nature of this area and numerous cultural monuments preserving its rich history.

NIZHNY NOVGOROD

General Information

Nizhny Novgorod Region is the economic and cultural center of the vast Volga-Vyatka economic region, administrative center of Nizhny Novgorod Region and Volga Federal District and is located in the central European part of Russia.

Region's area – 76.6 thousand sq. km

Region's population – 3,289.8 thousand people

Economic Development

The Region's advantageous geographical location, well-developed transport infrastructure, industrial and scientific potential, and highly qualified workforce signify strong economic and social potentials.

Key industries: automobile building, aircraft building, ship building, transport and logistics, food industry, ferrous metallurgy, scientific complex, chemical and oil-refining industry.

2012 GRP – 838.6 bln. RUB

Foreign trade turnover in the first 9 months of 2013–6.9 bln. US dollars

Export – 4.2 bln. US dollars

Import – 2.7 bln. US dollars

Investments in fixed assets in first 9 months of 2013–162.6 bln. RUB

Exhibition Activity

There are 2 exhibition organizers – RUEF members that carry out exhibition activity in Nizhny Novgorod. In 2013, these companies organized 31 exhibitions with total net space of 53,524 sq.m. 6,006 exhibitors took part in these exhibitions. There were almost 200 thousand visitors to the events.

Climate

The climate in the region is continental, and it is similar to the climate in Moscow, although colder in winter, which lasts from late November until late March with a permanent snow cover.

Transportation

Trains are probably the best and the most convenient way to get to Nizhny Novgorod. Most of the Trans-Siberian trains (including the legendary train No. 1 between Moscow and Vladivostok and the train from Moscow to Beijing) pass via Nizhny Novgorod. The international airport of Nizhny Novgorod (GOJ) is situated in Strigino district what is about 30–40 minutes by taxi from city centre.

Tourism and Sightseeing

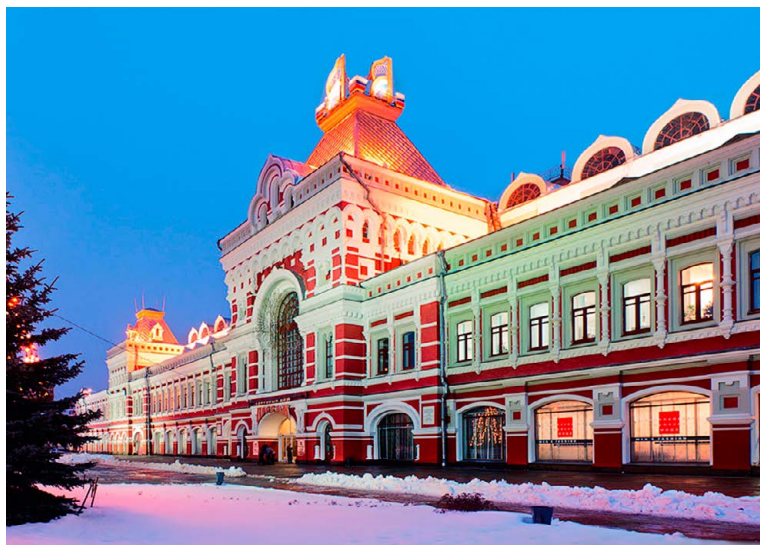

Nizhny Novgorod is the fourth largest city of the Russian Federation.

Much of the city downtown is built in the Russian Revival and Stalin Empire styles. The dominating feature of the city skyline is the grand Kremlin (1500–1511), with its red-brick towers.

There are more than six hundred unique historic, architectural, and cultural monuments in the city. UNESCO included Nizhny Novgorod in the list of 100 cities of the world which are of great historical and cultural value.

There are eight theatres, five concert halls, eight museums (sixteen including branches), and seven parks.

NIZHEGORODSKAYA YARMARKA, ALL-RUSSIA JSC

Address: 13 Sovnarkomovskaya St.,

www.yarmarka.ru

Opened in: 1991

Hall space: 12,000 sq.m

Open air space: 23,000 sq.m

Number of pavilions: 6

Number of conference rooms: 6

Exhibitions per year: 45

All-Russia Closed JSC “Nizhegorodskaya Yarmarka” is one of the biggest exhibition centers in Russia. Every year more than 50 exhibition and convention events of the All-Russia Closed JSC Nizhegorodskaya Yarmarka make site for presentation of innovative projects, new scientific developments, place for discussion of issues being the most topical for various industries, public health and education, information technologies and banking sphere, agriculture, architecture and art, ecology etc.

Nizhegorodskaya Yarmarka enjoys up-to-date infrastructure required for organization and holding of world level exhibitions, congresses and conferences. Its vast operation area (55,000 sq.m) accommodates six exhibition halls with total area of 12,000 sq.m and 23,000 sq.m of outdoor exhibition space. The number of companies participating in Nizhegorodskaya Yarmarka’s exhibition events is about 5,000 and the number of visitors reaches 200,000. The subjects of specialized exhibition events are selected based on the main lines of social and economic development of the Russian Federation and in accordance with RF National Projects.

Nizhegorodskaya Yarmarka is the only Exhibition Center in Russia participating in the UFI in two nominations: World Class Exhibition Center and Organizer of Exhibitions Satisfying the Requirements of the World Primary Standards, so Nizhegorodskaya Yarmarka is the only Russian exhibition company having two votes in the UFI. The membership in UFI has considerably raised the status of Nizhegorodskaya Yarmarka exhibition and congress events in the world.

The most important and representative projects of Nizhegorodskaya Yarmarka that can be considered as its brand names are five Forums: International Scientific and Industrial Forum “Future of Russia”, International Scientific and Industrial Forum “Great Rivers”, Russian Architecture and Construction Forum, All-Russia IT Forum, All-Russia Banking Forum.

Nizhegorodskaya Yarmarka works efficiently in the field of international exhibition activities. It has held several national exhibitions of the United Kingdom, national expositions of Finland, Bulgaria, India, Italy, Germany, France, and some African countries. Expositions organized by Nizhegorodskaya Yarmarka in London, Vienna, Hanover, Rome, Leipzig, Prague, Budapest, Shanghai, Beijing, Brno, Paris, Brussels, Berlin and other cities of the world enjoyed a high appraisal of world business society and gained essential economical and political success.

Major events hosted by the exhibition centre:

International Scientific and Industrial Forum “Future of Russia”

International Scientific and Industrial Forum “Great Rivers”

Russian Architecture and Construction Forum

International IT Forum

All-Russia Banking Forum

Hotel “Yarmarochnaya”

The hotel is 200 m away from world famous Nizhny Novgorod Fair. It is a perfect place for people who are going to visit showgrounds during forums and exhibitions. Favorable location – a short distance away from city center, easy transport accessibility, close vicinity to the railway station and the bus terminal makes it a convenient guesthouse for business visitors and tourists.

Yarmarochnaya is a small and cozy hotel, conveniently located near the historical center of Nizhny Novgorod and 200 m away from the main exhibition complex of Nizhny Novgorod Fair. Several points of interest and architectural monuments are located nearby: Spassky (Old Fair) cathedral, alongside with the Main Fair House are the only buildings that remained pristine since the time of prosperity of splendid Nizhny Novgorod Fair. Another remarkable sight is Alexander Nevsky (New Fair) cathedral, currently serving as the metropolitan church of Nizhny Novgorod.

This small and comfy hotel, located in a quiet borough of Nizhny Novgorod, has just 10 suites. Hotel’s favorable position near transport junction enables you to reach Strigino international airport in 25 minutes, railway station – in 5 minutes, river harbor – in 5 minutes, city center – in 10 minutes.

Free services:

- Taxi booking
- Registration of foreign citizens
- Hairdryer, electric kettle, radiator, iron, ironing board
- First aid kit
- Tea and coffee throughout the day
- Accommodation with pets
- High-speed Wi-Fi connection

NOVOKUZNETSK

General Information

Novokuznetsk is a major industrial centre in the south of Kemerovo Region. It is the city with the largest number of residents and also the oldest city in the Kemerovo Region. The city is one of the major steel and coal-mining centers in the country.

Region's area – 95.7 thousand sq. km

Region's population – 2,742.5 thousand people

Economic Development

Kemerovo Region is one of the most dynamically developing regions of Russia. It has about a third of the major manufacturing facilities in western Siberia.

Key industries: non-ferrous metals, forestry, machine engineering, energy.

2012 GRP – 717.7 bln. RUB

Foreign trade turnover (9 months of 2013) – 10.3 bln. US dollars

Export – 9.6 bln. US dollars

Import – 0.7 bln. US dollars

Investments in fixed assets (9 months of 2013) – 140.3 bln. RUB

Exhibition Activity

There are 3 exhibition organizers – RUEF members that carry out exhibition activity in Novokuznetsk. In 2013, these companies organized 14 exhibitions with total net space of 23,538 sq. m. 1,674 exhibitors took part in these exhibitions. There were more than 69 thousand visitors to the events.

Climate

The climate is continental with long winters and short summers. The average January temperature is -20°C , and the average summer temperature is $+20^{\circ}\text{C}$, although temperatures can range from -40 to $+40^{\circ}\text{C}$.

Transportation

The region has a dense railway network, including the Trans-Siberian Railway, which passes through it. There is an airport near Kemerovo.

Tourism and Sightseeing

There is a great emphasis put on preserving and developing culture in Kemerovo Region. There are 35 museums, more than 1,500 historical and cultural monuments, 27 of which are of federal significance (14 archaeological, 6 historical, 5 architectural, and 2 artistic monuments), 18 parks of culture and rest.

Novokuznetsk museum of local study is the first museum in the area where flora and fauna are exposed, lectures on history, ethnography and archaeology are held as well as on revolution and civil war, on modern Novokuznetsk.

Novokuznetsk F. M. Dostoyevsky literary museum possesses a large library, a collection of photographs, playbills, theater programs connected with the writer's works.

Memorial museum of Kuznetsk metallurgists' glory possesses over 2,500 exhibits.

Historical and architectural museum «Kuznetsk fortress» exhibits Kuznetsk at the end of the 19th – early 20th centuries. Excursions are held round the old fortress.

There are four theaters in the city: two of them are the oldest theater groups of Kuzbass – Novokuznetsk Drama Theatre and Novokuznetsk Puppet Theatre.

KUZBASS FAIR, CJSC

Address: 51 Avtotransportnaya St.,
Novokuznetsk, 654038, Russia

NOVOSIBIRSK

General Information

Novosibirsk is the administrative center and capital of Novosibirsk oblast and Siberian Federal District of Russia.

It is the third city of Russia by population after Moscow and St. Petersburg. Novosibirsk is the business, cultural, industrial, scientific, trade and transport center of Siberia.

Region's area – 177.8 thousand sq. km

Region's population – 2,709.5 thousand people

Economic Development

Novosibirsk is a large industrial center. The industrial complex consists of more than 200 large and average sized industrial enterprises. Novosibirsk is home for Russian Academy of Sciences Siberian division located like almost all other higher education institutes in separate suburb named Akademgorodok (meaning «The Town of Academy»).

Key industries: machine building, electric power generating, metallurgy and food.

2012 GRP – 659.5 bln. RUB

Foreign trade turnover (9 months of 2013) – 2.7 bln. US dollars

Export – 1.1 bln. US dollars

Import – 1.6 bln. US dollars

Investments in fixed assets (9 months of 2013) – 104.7 bln. RUB

Exhibition Activity

There are 4 exhibition organizers – RUEF members that carry out exhibition activity in Novosibirsk. In 2013, this company organized 36 exhibitions with total net space of 75,792 sq.m. 3,862 exhibitors took part in these exhibitions. There were almost 135 thousand visitors to the events.

Climate

The climate is sharply continental, with severely cold and snowy winters, and hot and dry summers. Temperatures in summer range from 20 °C to 25 °C, in winter –18 °C to –20 °C, but can reach from –40 °C to –50 °C in winter and 35–40 °C in summer.

Transportation

The city is served by Novosibirsk Tolmachevo Airport with regular flights to Europe and Asia as well as to other Russian cities. The Trans-Siberian Railway also crosses Novosibirsk Region.

Tourism and Sightseeing

Novosibirsk was founded in 1903.

One of the cultural attractions of Novosibirsk is theaters, among which the Opera House is considered the most famous and which became one of the symbols of Novosibirsk.

Another city symbol and place of pilgrimage of tourists is Chapel of St. Nikolay, which was built in 1914 to celebrate 300 years of Romanov's royal dynasty.

Among the main attractions of the city is Novosibirsk Zoo. It is known not only as a place of interest for tourists but as an important scientific institution. There are about four thousands of animal species living in the zoo.

One of the main merits of Novosibirsk Region for tourists is its nature. The diversity of species and landscapes is really unique.

The Novosibirsk Expocentre International Exhibition Complex is one of the largest exhibition complexes in the Asian part of Russia. Its location at the intersection of key highways, proximity to Tolmachevo Airport, and a convenient business infrastructure of Novosibirsk turn the Novosibirsk Expocentre into the main business hub of the Siberian Federal District. The territory of the District accounts for 30% of the Russian Federation area. And its population is over 19 million people.

The Novosibirsk Expocentre International Exhibition Complex complies with international standards of organizing and conducting events of different levels: international summits and congresses, exhibitions and fairs, conferences and seminars, concerts, shows, and sports events. The events held at the complex are annually attended by over 500 thousand people from different places of Russia and the world. List of attendees includes business owners, top managers, representatives of major national and international companies, scientists, experts, and specialists working in various spheres.

The Novosibirsk Expocentre International Exhibition Complex became a venue that hosts some of the largest exhibitions held at the territory of Siberia and the Far East. Total area of two exhibition halls of the complex equals 14,400 sq. m, area of the equipped outdoor area is 12,600 sq. m. The complex features modern engineering facilities. The used technical solutions allow connecting to any facility type with the provision of necessary output power at any place of the exhibition halls.

Conference halls of the Novosibirsk Expocentre International Exhibition Complex are equipped with modern technical systems for delivering speeches, demonstrating presentations, and organizing video conferences as well as hosting international events where simultaneous translation to several languages is required.

In order to create comfortable working conditions the Novosibirsk Expocentre International Exhibition Complex offers its visitors, exponents, and event organizers a wide range of services including design and construction of stands, connection of the equipment to engineering facilities, equipment adjustment, and catering services during the events.

Major events hosted by the exhibition centre:

International construction and interior exhibition “SibBuild”

International exhibition of machine engineering and metalwork “Mashex Siberia”

International forum of technological development “Technoprom 2014”

All-Russian conference of web developers “CodeFest”

Siberian International Neurosurgical Forum

Expo Hotel

An international-level 3-star hotel is currently being constructed at the territory of the exhibition complex in order to provide additional comfort to event organizers and guests of the Novosibirsk Expocentre International Exhibition Complex. Opening of the hotel is scheduled for December of 2014.

The concept and infrastructure of the Expo Hotel are aimed at creating maximum comfortable conditions for efficient work, good rest, and spending time in a useful and interesting way.

The hotel includes 202 rooms: 186 standard rooms and 16 deluxe suites. The hotel is able to provide family suites consisting of two linked and standard rooms for guests who travel together with their families.

Expo Hotel Infrastructure:

Business infrastructure: our guests can use the well-developed infrastructure of the Novosibirsk Expocentre to conduct negotiations and meetings.

Restaurant

Gym

Swimming pool and SPA

Nightclub

Transfer services, parking lot

How to get there:

1. Bus No. 111E (express). Route: Bus Station – Tolmachevo Airport;
2. Bus No. 112. Route: Mega Trade Centre – Tolmachevo Airport;
3. On event days a free express bus starts its route at Karl Marx Square (bus stop at 19 Blucher St.). Bus departure time – 9:30 A.M.
4. Visitors can get to the Novosibirsk Expocentre by commuter train. A free bus is waiting for passengers at Ob Station on event days.

PERM

General Information

The Perm Territory is a constituent territory of the Russian Federation included into Privolzhsky Federal District. It is located on the western slopes of the Middle and Northern Ural Mountains and shares borders with two parts of the world: Europe and Asia.

Region's area – 160.2 thousand sq. km

Region's population – 2,634.5 thousand people

Economic Development

The Perm Territory is a region of the Russian Federation which demonstrates a progressive positive economic development, a territory with political stability and investment appeal. The region has an industrial-type economy, which comprises more than 500 major and medium-sized enterprises operating in various industries.

Key industries: energy, machine engineering, chemicals and petrochemicals, fuel, forestry, timber, pulp and paper.

2012 GRP – 897.6 bln. RUB

Foreign trade turnover in the first 9 months of 2013–6.6 bln. US dollars

Export – 5.8 bln. US dollars

Import – 7.9 bln. US dollars

Investments in fixed assets in first 9 months of 2013–121.3 bln. RUB

Exhibition Activity

There are 2 exhibition organizers – RUEF members that carry out exhibition activity in Perm. In 2013, these companies organized 26 exhibitions with total net space of 37,159 sq.m. 2,773 exhibitors took part in these exhibitions. There were more than 280 thousand visitors to the events.

Climate

The Kama area is known for its long frosty, snowy Ural winters. However, the region's severe continental climate causes abrupt seasonal changes, from a cold winter followed by a mild, usually warm spring and then by a hot summer.

Transportation

Perm is an important railway junction on the Trans-Siberian Railway with lines radiating to Central Russia, the north part of the Urals, and the far east of Russia. Perm is served by the international airport Bolshoye Savino, 16 km southwest.

Tourism and Sightseeing

Perm is the largest city in the Kama area. It was founded in 1723. Perm is both a cultural and scientific center.

The most famous museum of the Kama region is the Perm Art Gallery.

Since 2008 regional museum of modern art "PERMM" became the sightseeing. Today it does not only present the works of artists, sculptors and architects but it is also an interactive site for collective actions of authors, spectators, politicians and sociologists.

One of the oldest theaters in Russia included into the list of leading musical stages of the country is the Perm State Opera and Ballet Academy Theater named after Tchaikovsky.

The open air architectural ethnographic reserve museum "Khokhlovka" is located on the highland of Kama not far from Perm.

Kungur ice cave is included into the list of the largest caves in the world.

Exhibition Center “Permskaya Yarmarka” is one of the regional leaders of exhibition business. During 20 years of the exhibition center operation representatives of more than 60 countries of the world including the countries of Europe, Great Britain, Canada, Scandinavian countries, China and other states of Asian-Pacific Region took part in its projects. Every year “Permskaya Yarmarka” is attended by more than 200,000 of visitors.

It is a large regional exhibition site contributing into the solving of important economic and social issues – actual both for the government institutions and certain businesses. Meetings of representatives of public authority and entrepreneurial business are conducted here on the basis of thematic exhibition projects. These projects provide the possibility for many inhabitants of the Kama region to realize their potential.

High level of business activity of the company every year results in the positive dynamics of many business processes at the Perm Territory as well as in the increasing of flows of tourists. In addition, the company participates regularly in the image events conducted in the neighboring regions there it acts as an organizer. Herewith the exhibition center is oriented both to the extension of contact area (projects in Germany, China, Moscow, Sochi, Ufa, etc.) and immersion (expositions within the area of the Perm Territory).

As of now the company is increasing its indicators: in concerns both the extension of exhibition areas and scope of sales and attendance as well as the service level improvement. Development of communications as well as entrepreneurial, social and cultural exchange continuously provided by the event industry play a key role for economic progress. “Permskaya Yarmarka” became such event center for the Perm Territory.

“Permskaya Yarmarka” is an owner of complex which consists of three specialized pavilions connected by capital building. Complex has all the main elements of infrastructure: conference halls, meeting rooms, café, restaurants, cloakroom, and service department. Total area of exhibition complex is 11,300 sq.m. Parking area, park and open exposition site with area of about 4,700 sq.m are locate near the pavilions.

Exhibition Center “Permskaya Yarmarka” uses the complex of prefabricated pavilions for separate exhibition events.

Major events hosted by the exhibition centre:

Art salon "Art Perm"

Specialized exhibition "Metalworking. Welding"

Specialized exhibition "Building Complex of Russian Regions"

Orthodox exhibition "Holy Russia"

Specialized exhibition "Oil and Gas. Chemistry"

SAMARA

General Information

Samara is one of the largest cities in Russia. It is situated in the southeastern part of European Russia, at the confluence of the Volga and Samara Rivers. During Soviet times, Samara was a city closed to foreigners. Today it plays an important role as large economic and cultural center of Russia.

Region's area – 53.6 thousand sq. km

Region's population – 3,213.3 thousand people

Economic Development

Samara Region is one of the leading regions of Russia with a high pace of social-economical development. The region is one of the largest industrial centers of the country and has a considerable research and development potential, a developed innovational infrastructure which altogether provide favorable conditions for innovational development.

Key industries: machine engineering and metal processing, chemicals and petrochemicals, food and beverages, energy, non-ferrous metals, agriculture.

2012 GRP – 941.6 bln. RUB

Foreign trade turnover in the first 9 months of 2013–8.9 bln. US dollars

Export – 6.4 bln. US dollars

Import – 2.4 bln. US dollars

Investments in fixed assets in first 9 months of 2013–156.9 bln. RUB

Exhibition Activity

There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Samara. In 2013, this company organized 21 exhibitions with total net space of 35,235 sq. m. 1,853 exhibitors took part in these exhibitions. There were more than 115 thousand visitors to the events.

Climate

Samara Region has a temperate continental climate, but the summers are much warmer and the winters harsher than in western Russia. The average annual temperature is +3.8°C, with average July temperatures of +20.7°C and average January temperatures of –13.8°C.

Transportation

Samara is a major transport hub. The Kurumoch International Airport handles flights throughout Russia, Central Asia, and Europe. There are rail links to Moscow and other major Russian cities. Samara is a major river port.

Tourism and Sightseeing

Founded in the year 1586 as supporting fortress, Samara became the capital of the province in 1851.

Nowadays the tourist infrastructure in the area is well-developed: there are more than 100 hotels and more than 50 health centers, 122 recreation centers, 74 children camps. Presence of natural monuments (580 sites), historical monuments (3636 sites), religious sites, as well as large cultural and recreational opportunities in the area are good prerequisites for creating popular tourist programs.

Samara Region has considerable cultural potential, with 4 theaters, 12 museums and their branches, a philharmonic, a state symphony orchestra, and one of the finest art galleries in the Volga region. Among the main museums of Samara are: Samara Arts Museum, Samara Local Lore Museum, Aleksey Tolstoy House-Museum, Stalin's Bunker, Lenin's House-Museum.

EXPO-VOLGA EXHIBITION CENTRE

Address: 23a Michurina St.,
Samara, 443110, Russia
Tel./fax: +7 (846) 207-11-22
E-mail: ev@expo-volga.ru
www.expo-volga.ru

Opened in: 1986/2002

Hall space: 5,024 sq. m
Open air space: 10,360 sq. m
Number of pavilions: 2
Number of conference rooms: 3
Exhibitions per year: 21

For more than 25 years Expo-Volga, EC, has been the largest exhibition operator in Samara Region. During its work, Expo-Volga has held more than thousand regional and international exhibitions, forums, and congresses.

Having its own exhibition complex, the company holds more than 40 congress and exhibition events a year. Developed infrastructure and broad technical capabilities of the complex allow the company to effectively conduct various business events of high international level.

Subjects of exhibitions held by Expo-Volga cover the most powerful and competitive regional clusters: automotive, petrochemical, tourist and recreational, and industries of transport and logistics, and construction technologies.

Cooperation with leading state universities of the region allows the company to hold scientific conferences, round tables and seminars for specialists covering the most topical issues of a particular industry.

Specializing in B2B exhibition projects, the company works closely with the regional government, Russian and foreign industry associations and offers a unique platform for cooperation between business and government.

Since 1995, the company is an active member of the Russian Union of Exhibitions and Fairs, one of the largest exhibition companies not only in Samara Region, but also in Russia. In 2011, Expo-Volga became a co-founder of the Swiss-Russian Industrial Business Club.

Today, the company portfolio includes exhibitions, which received high recognition. Thus, Power Engineering, Building Industry, and Industrial Show were included into the Russian exhibition rating; Building Industry, Samara Auto Show, Power Engineering and Industrial Show were assigned the RUEF mark; in 1999 for professional achievements, Expo-Volga was awarded the Arch of Europe for Quality.

The main driving force of the company is its team. Specialists of Expo-Volga distinguish themselves by high professionalism, creative thinking, and individual approach to each client.

SARANSK

General Information

Saransk is a city in central European Russia and the capital of the Republic of Mordovia. It is located in the Volga basin at the confluence of the Saranka and Insar Rivers.

Region's area – 26.1 thousand sq. km

Region's population – 818.6 thousand people

Economic Development

Today the Republic of Mordovia is a region with developed industry as well as agriculture. The Republic supports machine engineering, food and beverages production, and processing enterprises, meanwhile the production and technical potential of the agricultural sector are improving, too.

Key industries: machine engineering, metal processing, food and beverages, energy chemicals, petrochemicals, pharmaceuticals, agriculture.

2012 GRP – 132.5 bln. RUB

Foreign trade turnover (9 months of 2013) – 193.0 mln. US dollars

Export – 104.6 mln. US dollars

Import – 88.4 mln. US dollars

Investments in fixed assets (9 months of 2013) – 25.0 bln. RUB

Exhibition Activity

There is 1 exhibition organizer – RUEF member that carries out exhibition activity in Saransk. In 2013, this company organized 32 exhibitions with total net space of 29,402 sq. m. 2,005 exhibitors took part in these exhibitions. There were more than 260 thousand visitors to the events.

Climate

Climate is moderately continental. Average January temperature: – 11 °C; average July temperature: +19 °C.

Transportation

The republic has transportation links with almost all Russian regions. Saransk has a railway station (Kuibyshev railway) and an airport.

Tourism and Sightseeing

Saransk was founded in 1641 as a fortress. It is a cultural center of Finno-Ugric peoples.

Nowadays it combines historical buildings, fascinating sport objects, crowded malls and cozy parks.

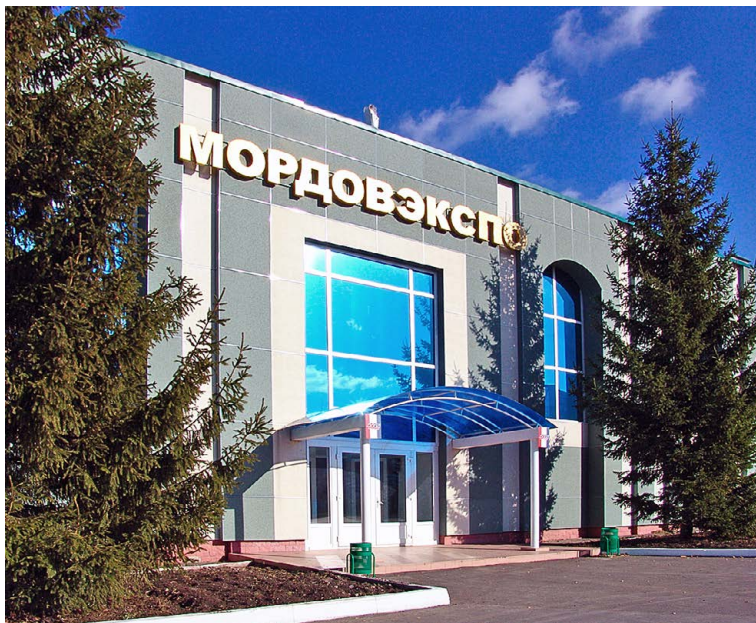

The architectural sites of Saransk are Ioann Bogoslov church, Tryohsvyatitelskaya church (second half of the 18th century).

There are many museums in the republic. The largest ones include the Mordovian Republican United Museum of Regional Studies and the Museum of Mordovian Culture in Saransk.

Historical monuments and museums and the distinctiveness of the Mordovian culture and region all favor the development of tourism in the city. The work of the great contemporary sculptor Stepan Erzya attracts visitors from around the world even today.

Saransk has several theaters, including the Dramatic Theater (founded in 1961), the State Puppet Theater of the Republic of Mordovia, and a Comedy theater.

Mordovexpocentre, LTD is one of the leading enterprises in organizing and holding exhibitions and congress fairs in the Volga Federal District, founded by the Chamber of Commerce and Industry of the Republic of Mordovia.

The enterprise works for more than 35 years, has four exhibition pavilions with total covered area of 4,100 sq.m and 4,000 sq.m of open area.

Mordovexpocentre today is a modern enterprise of the exhibition business, satisfying the requirements of exhibitors and visitors and offering a wide range of services.

The enterprise has modern exhibition equipment, allowing the construction of stands of different configurations, two conference rooms for 70 and 40 seats, equipped with the media system for congress events, Wi-Fi, mini printing-office, radio node, guarded parking for 100 cars, café for 80 seats and VIP-hall. As required conference rooms for 400 seats and one-to-one venues are organized in the exhibition pavilions.

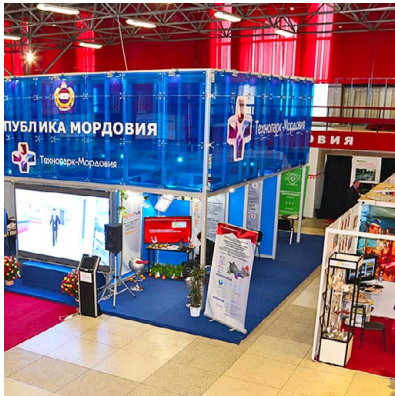

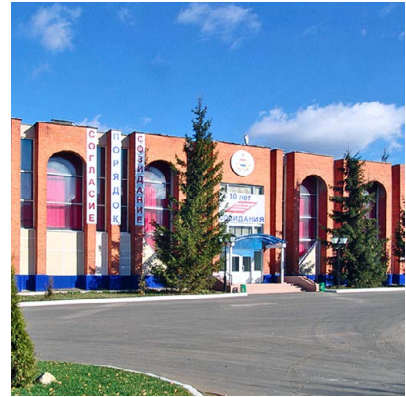

Territorially the Mordovexpocentre is located favorably within the city district Saransk with convenient logistics.

Thanks to the complete reconstruction of the fairgrounds in 2004, the exhibition and congress projects of the district (Volga Federal District) and the federal level are realized successfully today.

The sphere of activity of the Mordovexpocentre is:

- organization of international and interregional trade fairs and conventions;
- organization of collective expositions of enterprises of the Republic of Mordovia in international exhibitions in Russia and abroad;
- organization of congresses;
- general fitting, stand design;
- provision of advertising, printing and design services;
- provision of information, consultancy, commercial and intermediary services.

The enterprise is the winner of the All-Russian contest “100 Best Goods of Russia” and the winner of the Republican contest “Best Goods of Mordovia”.

STAVROPOL

General Information

Stavropol is a city located in south-western Russia and is the administrative center of the Stavropol Territory, also the cultural, business and industrial center of the region. One of the largest cities in the North Caucasus Federal District.

Region's area – 66.2 thousand sq. km

Region's population – 2,790.8 thousand people

Economic Development

The basis of the regional economy is agriculture, process industry, recreation-tourist and transport sectors. Over 400 plants make up an economic base of present day Stavropol.

Key industries: energy, food and beverages, chemicals and petrochemicals, machine engineering and metals.

2012 GRP – 431.0 bln. RUB

Foreign trade turnover in the first 9 months of 2013 – 1.4 bln. US dollars

Export – 0.8 bln. US dollars

Import – 0.6 bln. US dollars

Investments in fixed assets in first 9 months of 2013 – 71.1 bln. RUB

Exhibition Activity

There is 1 exhibition organizer – RUEF member with a permanent seat in Stavropol that carries out exhibition activity in the city. In 2013, this company organized 7 exhibitions with total net space of 3,892 sq. m. 252 exhibitors took part in these exhibitions. There were more than 20 thousand visitors to the events.

Climate

The climate is continental. The January average ranges from –4°C to –10°C (in mountains). Summers in flatlands are very warm with the July average +22 to +25°C.

Transportation

The transportation sector includes all forms of modern long-distance and industrial transport. The city of Stavropol relies on air transport (Shpakovskoye airport), rail, and highway connections to other Russian cities.

Tourism and Sightseeing

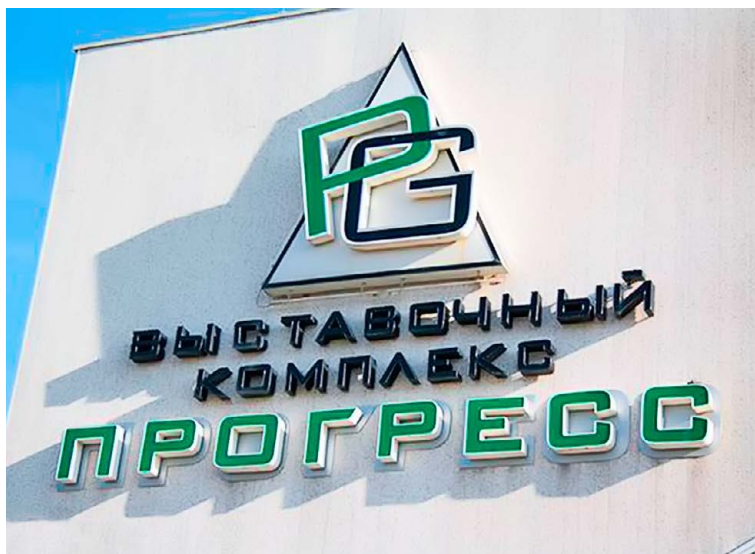

The Stavropol Territory is famous for medical mineral springs. This area houses a world famous recreational complex which is called Kavkaz Mineral Waters. The cities of Pyatigorsk, Zheleznovodsk, Lermontov, Essentuki, Mineralnye Vody, and other centers known for their mineral springs are located in this area.

Among architectural attractions of Stavropol the most distinguished are the “Krepostnaya Gorka” (Fortified Hill) memorial complex with a fortress wall fragment (1770–1780) that remains in the city center; a bust of A. V. Suvorov; a mosque; the Apostle Andrew Cathedral Church; the Assumption of the Blessed Virgin Cathedral (XIX century); a building of a former Gostiny Dvor (Trade center); an old office building; an old gymnasium (mid-XIX century) and a military hospital complex (1840s).

The Stavropol State Museum of History, Culture, Nature and Landscape Museum-Reserve has separate exhibition sectors of history and natural studies.

Another monument of Stavropol history is the “Tatarskoye gorodishche” (Tatar settlement) located between Stavropol and Tatarka village. This is the largest archaeological attraction of the Pre-Caucasian region that by miracle managed to stay intact inside a relic forest and among city, village and summer houses.

Opened in: 1993

Hall space: 2,700 sq. m
Open air space: 2,100 sq. m
Number of pavilions: 1
Number of conference rooms: 1
Exhibitions per year: 36

The permanent exhibition organization OJSC «Tyumen International Fair» was established in August 31, 1993 by the decision of Intergovernmental Council on Oil and Gas of the CIS member countries.

Factors that made it possible to establish a specialized exhibition organization in Tyumen are as follows: Tyumen region is the major petroleum artery of Russia; it represents a market with a large consumer's demand, and the capital of Tyumen region is an appropriate gathering place of manufacturers and consumers of energy complex products.

Therefore, the first and major exhibitions of the Tyumen Fair became "Oil and Gas. Fuel & Energy Complex" and "Construction and Architecture. Woodworking". Further on the calendar was extended by the exhibitions "Electronic Engineering for Fuel and Energy Complex", "Medicine and Healthcare", "Homeware", "Tyumen Agricultural Fair", etc.

The Tyumen Fair exhibited the products of Tyumen commodity producers at specialized exhibitions in Berlin, London, Harbin, Astana, Moscow, Nizhny Novgorod, Chelyabinsk, Vologda, Tobolsk, Novy Urengoy, Noyabrsk, Surgut and other cities and regions.

For the year to date nearly 600 exhibitions have been held. Companies from Russia, Finland, Rumania, the USA, Great Britain, Germany, Austria, Spain, Portugal, Belgium, Slovenia, China and other countries took part in these exhibitions. Over 1 million people visited the exhibitions, including the authorized representative of the President, heads of municipal formations of Tyumen and Tyumen region, General Consuls of the USA and Great Britain, delegations from China, parliamentary group from France, chiefs of governmental departments of Finland, representatives of the Ministries of the Russian Federation. Among the guests of the Fair there are top managers of oil and gas companies, directors of banks and industry associations, key specialists and research workers.

Owing to the efforts of the Tyumen Fair, under support of the Tyumen region administration there is an efficient exhibition industry in Tyumen city. Currently exhibitions held by OJSC "Tyumen Fair", embrace any directions and trends, being of interest to Tyumen region: production and fuel refinery, power engineering, provision of gas supply, industrial and civil engineering, road construction, mechanical engineering, wood-working, medicine, information technologies, agriculture, light industry, etc.

MOLDOVA

The Republic of Moldova lies in the central part of Europe in the northwestern Balkans. Moldova occupies an area of 33,846 sq. km. Population of Moldova comes to 3.56 mln. people.

The capital of Moldova is Chisinau. On the North, East and South Moldova is surrounded by Ukraine, and on the West it is separated from Romania by the Prut River.

There is a number of good reasons for making an investment in Moldova. Moldova has a number of distinct advantages. These include:

- Strategic location – the beneficial geographic position of the country between east and west – the neighboring country with European Union, being a bridge between West and East
- Highly educated low-cost labour forces with extensive language skills particularly Romanian and Russian
- Extensive natural resources particularly in agro-food sector where Moldova is a traditional supplier of quality produce to whole region
- Favourable climatic conditions for the development of a wide variety of agricultural products
- Extensive free trade agreements with all of the CIS countries
- Extensive bilateral agreements on the protection of investments

The Government of Moldova is firmly committed to improving the investment environment and is active in reducing the legislative and regulatory barriers for foreign investors.

Exhibition Activity

There are 2 exhibition organizers – RUEF members that carry out exhibition activity in Chisinau. In 2013, these companies organized 28 exhibitions with total net space of 39,371 sq.m. 2,322 exhibitors took part in these exhibitions. There were more than 204 thousand visitors to the events.

IEC MOLDEXPO JSC is a leading exhibition organizer in the Republic of Moldova with an experience of more than 55 years in the field.

- Full member of the Global Association of the Exhibition Industry (UFI)
- Full member of the Central European Fair Alliance (CEFA)
- Associate member of the Russian Union of Exhibitions and Fairs (RUEF)

MOLDEXPO is a modern exhibition complex, contributing importantly to the development of trade with many countries of the world, to the implementation of national projects, expansion of economic relations between countries, promotion of Moldovan products on domestic and international markets through trade fairs and exhibitions.

Annually, the pavilions of the Centre are hosting more than 50 exhibitions, fairs, shows, concerts and other events.

The main directions of activity of the International Exhibition Center MOLDEXPO are:

- organizing exhibitions and fairs at home and abroad;
- organizing conferences, seminars, presentations and other business programs;
- organizing advertising campaigns and promotions;
- mounting and decorating exhibition booths;
- leasing exhibition equipment and implements.

IEC MOLDEXPO is the sole exhibition venue in Moldova with 5,000 sq.m of outdoor and 10,000 sq.m of indoor exhibition area, located on the Centre fairgrounds with a total area of 24 ha, with modern infrastructure and engineering equipment.

In accordance with the plan, approved by the Government of the Republic of Moldova, a number of projects are being implemented on Moldexpo fairgrounds, covering a wide spectrum of activities: an exhibition-business complex, a congress centre, a business centre, an entertainment centre, an aqua park, a hotel, etc.

The accomplishment of these projects will make IEC Moldexpo a modern venue for business, cultural and entertainment events, thus attracting more attention to our country.
